

Print a Copy of your COVID-19 Test Result

MyChart is a secure, online health management tool that connects you to portions of your electronic medical record allowing you to see test results, message your physician, schedule appointments and more.

Use **MyChart** to print a paper report of your COVID-19 test result for return to school, travel, and other documentation needs.

It is important to note that results displayed on a mobile device will not include your name and date of birth, which is typically required to show proof of a negative COVID-19 result. Printing the result report will ensure all necessary information is included.

1. **Sign up** or **log in** to your Cleveland Clinic **MyChart** account at mychart.clevelandclinic.org.
