Have you ever left your provider’s office realizing you forgot to ask an important question?

Use this handy guide to ensure you address all of your health maintenance concerns at your next office visit.

1. **Before your appointment, review the following information in MyChart:**
   - Upcoming Appointment details
   - Upcoming Orders
   - Recommended Preventive Care procedures
   - Medications List
   - Current Health Issues

2. **During your appointment, discuss the following items with your provider:**
   - Medications List and any necessary renewals
   - Preventive Care procedures that may need to be ordered
   - Any questions you may have related to your Current Health Issues

3. **After your appointment, review the following information in MyChart:**
   - Past Appointment details, including your After Visit Summary and provider notes*
   - Test Results

**Don’t forget, with MyChart you can:**
- Send a secure message through the Message My Doctor feature*
- Schedule or Request your next appointment
- View your provider’s notes* from your office visit in Past Appointments

*Certain MyChart features are not currently available in all Cleveland Clinic departments.

Thank you for being an engaged patient partner and playing an important role in helping your healthcare team deliver the quality care you deserve.
