

# Steps to Create and Review an Estimate Using a Personal Computer (PC)

## Create a New Estimate

1. Located under **Your Menu** and then the **Billing** section, click the **Estimates** link.
2. Click + **Create a new estimate** link.
3. Choose a location option from the list shown.
4. Choose an option from the list of categories shown.
5. Choose an option from the list of results shown.

6. Fill in the benefit coverage areas. Also if your insurance cannot be verified, you will need to manually enter your insurance information.

- Choose one of the two options shown:  
**Use these benefits** or **Don't use insurance**.

① You have other insurance coverages that might pay towards this service. Only payments from your primary insurance, Cigna, will be included in the estimate. Your other insurance coverages include:

- Medicare / MEDICARE

Please enter your benefits. These may be found on your member card or other material provided by your insurance provider. If you can't find this information, you can contact your insurance provider.

<b>Remaining Deductible</b> ① \$ 100.00 I don't have a deductible	<b>Coinsurance</b> ① N/A % I don't have a coinsurance
<b>Remaining Out-of-Pocket</b> ① \$ N/A I don't have a max out-of-pocket	

If your insurance information is out of date, please contact us at 855-831-1284 to update it, or request to update your insurance online.  
For Florida patients, please call 954-689-5610 option 2.

## Review Finalized Estimates

Once an estimate has been confirmed and prepared by Cleveland Clinic staff, it will appear within the Finalized Estimates section. At that point you can view a more indepth price breakdown.

- Click the **View letter** button.

**This is a financial estimate for a medical service based on your insurance coverage and what patients have been charged in the past for the same service.**

**The amount shown is a predicted amount, not a quote or guarantee, as many factors go into a final cost for services provided. Prices may vary, but we try our best to give you the most accurate estimate.**
